1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.

Applicant's submission filed on 1-6-06 has been entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul DiConza on February 7, 2006.

The application has been amended as follows:

Cancel non-elected claims 32-74.

3. The following is an examiner's statement of reasons for allowance:
Asakawa et al teach an ordered porous nanocomposite material however fail to teach or fairly suggest the claimed nonporous material. As argued by applicants nonporous is where the pores are eliminated through a closing action. Therefore the claims are interpreted as having zero porosity because the pores are eliminated. Navrotsky et al (6,960,327) is cited of interest for teaching a nanocomposite however the composite is microporous. The prior art of record

Art Unit: 1755

fails to teach or fairly suggest the claimed nonporous ceramic material having a ceramic phase that is ordered on a nanoscale and is thermally stable up to 800°C and greater.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
